

Many hands make Light work

OzChild's charity partner, O'Brien Electrical Carrum Downs is committed to making a difference in the lives of families doing it tough due to the coronavirus pandemic.

For many years O'Brien Electrical Carrum Downs have generously supported a Mother's Day Makeover with the help of other trades and services for an OzChild foster carer in need of a home makeover. And the results have been life changing.

David Gibson with past Mother's Day Makeover recipient Helen Fox

Being able to make a difference through a home makeover is our way of saying thanks, for everything foster and kinship carers do. Every year we hope it makes a difference not only to carers but for the children in the home too, for many years to come.

This year, because of the coronavirus we can't offer the makeover like we have in the past, so we wanted to make a difference to more people by offering a technician or "handyman" to help out with essential electrical repairs around the home.

Sometimes just fixing a light switch or connecting a modem can make a big difference to the household, I really hope through this program we can help those who really need it most.

David Gibson | CEO O'Brien Electrical Carrum Downs

O'Brien Electrical Carrum Downs will provide a technician in the Bayside Peninsula and Southern Melbourne regions* in your home to attend to essential repairs. O'Brien Electrical Carrum Downs is generously making this service available one day per week for the foreseeable future as their commitment to carers.

Do you have a light switch needing repair, perhaps your aerial needs fixing, or the front porch light doesn't work anymore?

Let your worker know what you need done around the home, or email dandenongadmin@ozchild.org.au and the friendly team at O'Brien Electrical Carrum Downs will see if they can help!

*Offer is available only to OzChild carers in the DHHS Bayside Peninsula and Southern Melbourne regions, including the local government areas of Port Phillip, Stonnington, Glen Eira, Bayside, Kingston, Frankston, Mornington Peninsula, Greater Dandenong, Casey, and Cardinia
